Inhalt

- Learning Journeys - A visual guide illustrating the path a learner can choose to become fully competent in a solution
- Learning management system capabilities - To track and report on learning goals and progress
- SAP Learning Rooms - Structured collaboration and social learning led by experts from SAP or partners
- Educational content - Unlimited access to all of the learning content from SAP, including role-based learning and certification paths
- SAP Live Access - 10 hours of hands-on training on preconfigured SAP live software systems
- Two exam bookings for online certification in the cloud exams from SAP

Hinweise

- Significant cost reduction per learner allows you to train your entire technical workforce on SAP software.
- It simplifies the purchasing process to one transaction a year: no scheduling, no cancellations, and so on.
- It brings all technical professional workers up- to-date on SAP IoT and digital supply chain solution knowledge, providing perpetual "classrooms" in the cloud and live training systems anytime, year-round.
